Safety Advice

Attention

In some countries or areas, you may have to obtain permission when setting up structures like greenhouses or similar buildings exceeding a certain size. It is your responsibility to comply with local rules and regulations and to ensure that the greenhouse is assembled correctly.

Please note that your polytunnel greenhouse is intended as a seasonal form of coverage and not as a permanent structure! During windy weather, we advise you to secure your greenhouse or in case of strong wind, take it down. Overall, we advise you to place your polytunnel greenhouse in the lee of a building, trees or other objects that will protect the greenhouse from too strong and direct wind.

When it rains, water may pile up on top of your polytunnel greenhouse causing it to collapse. It is your responsibility to keep the roof of the greenhouse free of gathering water. Be sure that the cover is fully extended at all times and make sure to remove water that builds up during rainfall.

In case of bad weather in general, please secure loose objects in the garden, e.g. the garden trampoline and other things that may cause a danger for your polytunnel greenhouse. Furthermore, do not use open fire, welding equipment or other sources of ignition, inside or close to the greenhouse.

When you buy a greenhouse and set it up in your garden, we recommend that you check, whether your home insurance covers the structure. At the same time, you are not supposed to be inside the greenhouse during extreme weather conditions.

This structure has not been tested for specific snow and wind loads! Make sure you follow our general safety advice and in the event of snow, always remove excessive amounts of snow from the greenhouse to prevent too much snow on the roof of the greenhouse. Snow is likely to make the entire structure to collapse; hence our advice about seasonal use only.

Note: Dancover warranty applies only to the normal use of the greenhouse, normal wear and tear excepted, by written use instructions or manual. The warranty does not apply to damage caused by accident, abuse, misuse or modification of the greenhouse.

Warranty Information

Please visit dancovershop.com for information on warranty.
